## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter:

The Applicant's response, July 13, 2001, clearly stated the inventive steps of the present invention.

Regarding claims 1, 21, and 41, none of the prior arts of record, in combination or individual, show or make it obvious a method of controlling data traffic wherein the base station communicated with each wireless terminal through a respective bi-directional wireless data communication link, and wherein the base station examine the performance of each wireless link to identify a poorly performing wireless link and temporary interrupting bi-directional data transmission of the wireless link (where it is clear that after the wireless link is suspended for a delay period, the data transmission is restarted on the wireless link, see the specification, especially page17/lines 22-31. Also, see Applicant's response filed 05/24/07). Claims 2-20, 22-40,54 are dependent claims, respectively.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
